

ABDELRHMAN EHAB

Frontend Developer | Angular · React · TypeScript

abdelrhmanehab047@gmail.com | +20 1090883652 | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Frontend-focused engineer with strong delivery experience in Angular and React across admin platforms, scheduling systems, and enterprise dashboards. Builds maintainable TypeScript codebases, scalable UI architecture, and reliable API integrations from planning through production.

PROFESSIONAL EXPERIENCE

Riyada Al Arabiya For Information Technology

Jan 2026 – Mar 2026

Frontend Web Developer (Part-time)

Remote, Saudi Arabia

Contributed to Care Connect Dashboard migration from Laravel views to a modern SPA frontend architecture, delivered scheduling workflows (calendar/table/filtering) with robust backend integration patterns, and tested Watu (university platform for students/instructors) by documenting bugs and unfinished scope in a full report for leadership while aligning team execution through focused 1:1 sessions.

Virtuwa HV

Oct 2025 – Present

Frontend Web Developer (Part-time)

Remote, Saudi Arabia

Built React + TypeScript interfaces for virtualization operations across VMs, hosts, clusters, storage, networking, and licensing; delivered VM lifecycle workflows (create/edit/power/clone/snapshot), operational dashboards, and browser console access; and implemented auth UX, event/audit flows, and bilingual EN/AR support with RTL.

Smartly Techs

Feb 2024 – Present

Frontend / Full Stack Engineer

Hybrid, Egypt

Led Angular implementation for enterprise admin systems with modular routing, RBAC, and complex form workflows, built reusable frontend components and validation patterns for large dynamic forms and multilingual UX, and improved production performance quality with Lighthouse score uplift from 61 to 84.

Pro Event

Jul 2025 – Mar 2026

Software Engineer (Part-time)

Remote, Cairo

Proposed a dedicated software function inside the company and defined migration direction from Salla/Zid to WordPress + WooCommerce, while standardizing storefront UI across core pages (product/category/blog/checkout) and improving engagement with navigation, CTA, and SEO-focused updates.

SELECTED PROJECTS

GAS-REG Portal

Angular, TypeScript, Reactive Forms, i18n

Regulatory workflow platform

Built complex form journeys and multilingual EN/AR UX with reusable components and strong validation patterns.

VirtuWa Cloud Manager

React, TypeScript, TanStack Query, Recharts

Enterprise virtualization console

Delivered VM operations, monitoring dashboards, and event/audit experiences for cloud infrastructure management.

TECHNICAL SKILLS

Frontend: Angular, React, TypeScript, JavaScript, Next.js, Vue 3, Tailwind CSS, Bootstrap

Architecture/State: RxJS, Reactive Forms, React Query/TanStack Query, Router-based SPA architecture

Backend Integration: REST APIs, Auth flows (JWT/session), Axios/fetch, payload mapping and validation

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

DevOps/Tools: Git/GitHub, Docker, Nginx, Linux, GitHub Actions, Postman, Jira, VS Code

EDUCATION

Bachelor's Degree in Computer Science & Statistics — Faculty of Science

2021
